

# Synergizing Development Strategies for Universal Benefit and Inclusive Economic Globalization

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Chairman of NPC Finance and Economic Affairs Committee, President of the Inter- Parliamentary Union, esteemed delegates,

Good morning.

I appreciate the Government of China for the hospitality and congratulate the NPC on its 40th anniversary as a member of IPU.

**Mr. Chairman,**

As we align our development strategies for inclusive global economic growth, we must recognize that each nation's journey is unique. The Maldives faces specific challenges and opportunities.

Our economic strategy is linked to our democratic values and sustainability. As President Dr. Mohamed Muizzu stated, "Sustainability has been our ethos. Resilience has been our way of life"

**Mr. Chairman,**

Our commitment to sustainability is evident in our collaborations, particularly with China, whose support has advanced key projects.

The recent participation of the Deputy Speaker of the Maldives Parliament in the China-South Asia Expo in Kunming offered valuable opportunities for economic exchanges.

**Mr. Chairman,**

Aligning strategies for inclusive economic globalization requires a commitment to sustainability and collaboration. The Maldives looks forward to continued partnerships with China and other nations for a prosperous future.

In closing, I thank the Chinese government for their hospitality and all participants for your commitment to this dialogue. Together, let us strive for an inclusive global economy.

Thank you.
